Option A — Early camp builds demand

Camp 5–15 November creates a six-week window for destination content, online engagement and visitor planning before the 26 December finale.

OPTION A · PROMOTION WINDOW; CAMP-TO-FINALE CONTINUITY REDUCED

Option B — Camp leads directly into the finale

Camp 16–25 December preserves training, discipline and continuity into the 26 December finale, but sharply shortens the promotional runway.

OPTION B · STRONG CONTINUITY; SHORTER PROMOTIONAL WINDOW

A pageantry that promotes the destination, not just the pageant

Tourism

Cost Build I — prizes, camp, planning, media & hospitality

The eight largest line items, in descending order — each tied to a clear basis and control logic.

COST LINE / AMOUNT	BASIS OF ESTIMATE	WHY REQUIRED / CONTROL LOGIC
1 Cash prizes & finalist empowerment ₦36.0m	28 × ₦0.5m = ₦14m; 2nd r-up ₦5m; 1st r-up ₦7m; winner ₦10m. Vehicle separate.	Arithmetic-based prizes for all 31 finalists; any vehicle is a separate Government or sponsor-backed decision.
2 Bootcamp accommodation & feeding ₦32.0m	40 residents × ₦80,000 × 10 days.	Covers 31 finalists plus 9 resident personnel; subject to a negotiated hotel group rate.
3 Secretariat & strategic planning ₦30.0m	Secretariat, controls, faculty and whole-person training.	State-side control room plus specialist delivery; one consolidated line with no duplicate fee.
4 Integrated media & streaming ₦20.0m	Digital, radio, print, press relations and live online streaming.	Statewide mobilisation, camp content, influencers and voting promotion. National TV excluded.
5 Ward + LGA Selections ₦15.0m	31 LGAs — controlled average allocation per LGA.	Local mobilisation, audition setup, judging support and movement using existing LGA structures.
6 Destination branding & profiles ₦15.0m	Fixed mobile content-production package.	Contestant profiles, tourism challenges, photography/video and Commission-owned year-round assets.
7 VIP hospitality & refreshments ₦12.0m	Provisional VIP/dignitary allowance for the Grand Finale.	Closes the hospitality gap and may be offset by premium table sales without double counting.
8 Finale venue & guest experience ₦12.0m	1,500-guest basis: venue, seating, protocol and ushers.	ARISE Palm preferred; Unity Park alternative. Stage and technical scope are separately negotiated.

Cost Build II — production, logistics, selections, security & digital

The remaining six cost lines, followed by the explicit national-television exclusion.

COST LINE / AMOUNT	BASIS OF ESTIMATE	WHY REQUIRED / CONTROL LOGIC
9 Stage, LED & effects ₦10.0m	Controlled technical production package for the flagship finale.	Competitive procurement, locked scope, equipment schedule and reuse/rental discipline.
10 Contestant & crew logistics ₦10.0m	Fixed lean transport and operations allocation.	Pooled vehicles, fuel, transfers and route operations controlled through manifests and retirements.
11 Senatorial Selections ₦6.0m	Three zones — Eket, Ikot Ekpene and Uyo.	Regional showcases create destination content without replicating major-event cost in every LGA.
12 Show mgmt & rehearsals ₦5.0m	Fixed event-operations package.	Rehearsals, backstage, stage management, entertainment and live run-of-show.
13 Dedicated security & protocol ₦5.0m	Supplemental risk-based allocation for the travelling unit and finale.	Site-specific escort for activations, camp and festivals; not a duplicate of the State security vote.
14 Entry / voting digital platform ₦3.0m	Website, entry portal, voting, payments, backend and reporting.	Auditable voting and payment records create a direct IGR channel rather than a publicity cost.
EXCL. National TV live broadcast	Separate quotation, budget and approval.	Not included in the ₦211.0m subtotal or the ₦232.1m gross programme cost.

Funding first. Every line reconciled.

Sponsorship is applied before the Government ask; ticketing, table sales and voting remain additional upside.
